Gunnebo Cash Management ZEN D Software

Gunnebo Cash Management software platform for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity

ZEN D connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability

Designed to be flexible and modular, ZEN adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs. Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of ZEN D, which adapt to your business goals.

Advanced Reporting

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Benefits

Hyperconnectivity

Remote Management

Endless Adaptability

Flexible Workflow

Advanced Reporting

Choose from the full range of ZEN Suite modules, including Balance for your finances and Enhance for your service operations.

ZEN Balance

Business reporting, analytics, cash level monitoring and routine optimisation

Take control of your financial events in real-time.

Reporting

Advanced reconciliation reports for deposit collection and end of day

Daily summary of cash sales, collections and refillings in one single view

- Balance of content at start and end of day
- Summary of cash collected by the CIT for that day
- Report for CIT activity in the store

Activity report by cashier for individual reconciliation

Predefined reports can also be sent via ZEN D

Cash Level Overview

Overview of all content with detail by denomination:

- Real time quantity of notes and coins deposited.
- Real time amount of cash deposited.
- Breakdown by denomination.

Monitor levels of cash by denomination in number of units and value, in real time for rapid problem solving.

Alerts and fields

Alerts can be sent via email when a certain operation status is continuing over a certain period of time, to prewarn you of any issues and predict issues.

Live custom fields and One Time Code can also be configured.

Hyperconnectivity

- Up to 2 different connections in real time
- Remote upgrade management
- Remote template upgrade management
- Remote back-up of configuration
- Remote user management
- Remote logs request management

ZEN Enhance

Live status monitoring, remote access and predictive device maintenance

Strengthen your technical support with this service module.

Remote Management

Remotely access your devices from anywhere without compromising on security.

- Remote upgrade management
- Remote template upgrade management
- Remote back-up of configuration
- Remote user management
- Remote logs request management
- Remote access allows remote sensors' check, remote calibration and remote control of motors
- Cloud Mirror allowing full disaster restore

Maintenance

- Predictive maintenance and performance analysis giving you full control over the health of your devices.

Reporting

- Get complete reports of upgrade success to guarantee that all devices have been updated
- Remote banknote recognition data
- Serial Number Recognition

SOFTWARE SUITE

The left column has too much content.

Gunnebo Cash Management ZEN D

Licence Subscription Model

Option 1

Hosting Model On Premises

includes maintenance of customer server instance including webserver and database.

Hosting Model On Cloud

includes maintenance of all IT infrastructure on Gunnebo Cash Management cloud.

About ZEN Suite

ZEN is a modular software suite which gives “smart cash management” a whole new meaning.

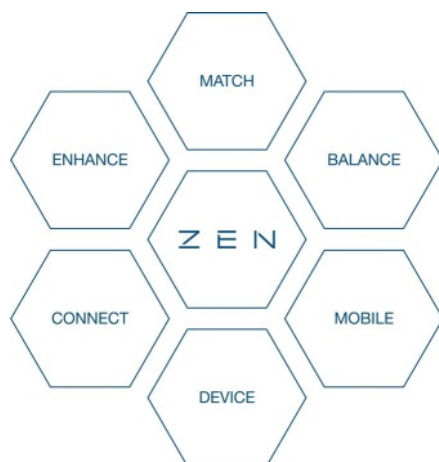

With ZEN, you can connect with any cash handling device, cash service provider or third-party system, remotely manage upgrades and users for all the devices on your network, and benefit from a flexible design which will adapt to your needs.

One software to

- optimise your entire cash cycle operation
- reduce the cost of services and maintenance of your devices
- automate in-store routines and offer full reporting for reconciliation
- be there without being there

ZEN Suite Modules

1. Match: End-to-End Cash Reconciliation
2. Enhance: Service Monitoring and Optimisation
3. Balance: Business Reporting and Analytics
4. Connect: Data Sharing and Connectivity
5. Mobile: In-Store Optimisation
6. Device: Multi-Device Connectivity

Find the right solution for you!

Cash Monitoring Software

Complete control over your cash handling operations with business analytics, service monitoring, end-to-end cash reconciliation and multi-device connectivity.

Cash Deposit Solutions

Save time and money with smart cash deposit solutions for retail front and back office.

Cash Recycling Solutions

Optimise your cash flow and keep cash circulating efficiently with cash recycling solutions for retail.

SafePay Closed Cash Management

SafePay replaces traditional tills with a smart recycling system which protects cash from payment all the way to the cash-counting centre.

Bank Solutions

Cash automation solutions which support bank branch transformation and cut the time staff spend working with cash.

Service

Expert support ensures that your systems run smoothly and efficiently with minimal disruption to your business.

Gunnebo Cash Management creates a more efficient and secure cash cycle to help you reduce the cost of cash handling.
